

ANNELI KARLSTEDT

Anneli Karlstedt is the Head of Inclusion & Diversity at Nokia.

My dream is that diverse teams come together to ideate, innovate and progress. Systemic changes can be driven through openness and transparency enabling marginalized groups in corporations to become visible in work-life. Diverse identities, backgrounds, experiences and cognitively unique capabilities make us better in business.

WHY INCLUDIA'S ADVISORY BOARD?

- Includia works in a field that I greatly care about. I want to be helpful and give back all the good I have been able to enjoy and get excited about myself.
- This is my first Advisory Board membership, so it's all new and exciting. I look forward to interesting and giving discussions with Asko, Sami and Jonna.
